

Category	Description
WHO	
Names	Full name of the individual (patient/client).
Sex	Biological sex or gender of the individual
Date of Birth (DOB)	The individual's date of birth used to determine age.
System ID	Unique identifier assigned by the health information system
Nationality	Country of citizenship of the individual.
Identifier Type	Type of identification used (e.g., National ID, Passport etc
Identifier Number	Value for your identifier
WHAT	
Suspected	Indicates whether the individual meets the suspected case definition.
Screening	Indicates whether the individual has undergone disease screening.
Confirmed	Indicates whether the case has been laboratory or clinically confirmed.
Died	Indicates whether the individual died due to the disease or event under surveillance.
Recovered	Indicates whether the individual has recovered from the disease.
Tested	Indicates whether a laboratory test was performed.
Result	Outcome of the laboratory test
WHERE	
Point of Entry (POE)	Location where the individual entered the country or was screened
Reporting County	County responsible for reporting the case or event.
Reporting Sub-county	Administrative sub-county where the case was reported.
Ward	Administrative ward where the case was identified or reported.
Facility (FID)	Health facility where the case was managed or reported, identified using the FID
Community Health Unit (CHU)	CHU responsible for the individual's community-based services or reporting.
WHEN	
Reporting Date	Date on which the case or event was reported to the surveillance system.
Reporting time	Time at which the case or event was reported.

Category	Description	Lab Variable	Notes
WHO			
Names	Full name of the individual (patient/client).	-	
Sex	Biological sex or gender of the individual	-	
Date of Birth (DOB)	The individual's date of birth used to determine age.	-	
System ID	Unique identifier assigned by the health information system	TID	
Nationality	Country of citizenship of the individual.	-	
Identifier Type	Type of identification used (e.g., National ID, Passport etc	-	
Identifier Number	Value for your identifier	orderIdentifier	
WHAT			
Suspected	Indicates whether the individual meets the suspected case definition.	-	
Screening	Indicates whether the individual has undergone disease screening.	-	
Confirmed	Indicates whether the case has been laboratory or clinically confirmed.		derived from Result
Died	Indicates whether the individual died due to the disease or event under surveillance.	-	
Recovered	Indicates whether the individual has recovered from the disease.	-	
Tested	Indicates whether a laboratory test was performed.		derived from Result
Result	Outcome of the laboratory test	conclusion	
WHERE		-	
Point of Entry (POE)	Location where the individual entered the country or was screened	-	
Reporting County	County responsible for reporting the case or event.	-	
Reporting Sub-county	Administrative sub-county where the case was reported.	-	
Ward	Administrative ward where the case was identified or reported.	-	
Facility (FID)	Health facility where the case was managed or reported, identified using the FID	performerMFL	
Community Health Unit (CHU)	CHU responsible for the individual's community-based services or reporting.	-	
WHEN			
Reporting Date	Date on which the case or event was reported to the surveillance system.	-	
Reporting time	Time at which the case or event was reported.	-	

Category	Description	mDharura Variable	Type
WHO			
System ID	Unique identifier assigned by the health information system	id	String
Signal ID	Signal number, i.e. 1,2,3,4,5,6,7,8 or H1,H2,H3,H4	signal	String
Unit Name	CHU/Health facility where the signal was reported in.	unit_name	String
Unit Type	Community Unit or Health facility	unit_type	String
Reporting County	County responsible for reporting the case or event.	county	String
Reporting Sub-county	Administrative sub-county where the case was reported.	subcounty	String
WHAT			
Verified	Indicates whether the signal was verified by a CHA	signal_verified	Boolean
Verified True	Indicates whether the individual has undergone disease screening.	signal_verified_true	Boolean
Verification Date	Indicates the date the signal was verified.	signal_verification_date	Datetime
Investigated	Indicates whether the signal was investigated by the SCDSC	signal_investigated	Boolean
Investigation Date	Indicates the date the signal was investigated.	signal_investigation_date	Datetime
WHEN			
Reporting Date and Time	Date on which the case or event was reported to the surveillance system.	created_at	Datetime
